

Gen II Features and Benefits

- Enhanced APEX coaching model. Easier to interpret with less red lights on the straights!
- Predictive Timing Display option on APEX Pro LED's.
- Telemetry Streaming via CrewView with in-app purchase.
- Charging status indicator next to USB-C charging port. Red: Charging | Green: Charged
- Lower profile design for mounting versatility and visibility.
- New style Baseplate for an even more secure mount.

Hardware Specs

- 16 bit IMU with 8x the precision of the APEX Gen I unit.
- 10hz GPS now uses a patch antenna, providing 50% accuracy improvement over Gen I.
- Improved battery life due to low power mode in standby.
- Improved battery indicator.
- Physically smaller than APEX Gen I by 1/4" height.
